## VINEYARDS

The Yarra Valley is one of Australia's coolest regions with elevation varying from 1969 inches to 15748 inches. Rainfall is winter/spring dominant, with the summer relatively cool, dry and humid. The traditional grape growing areas on the northern side of the valley are grey to grey-brown in color on the surface and range from loamy sand to clay loam in consistency with red-brown clay subsoils, frequently impregnated with rock. The other major soil type is the immensely deep and fertile red volcanic soil on the southern side of the valley. The continental cool climate and the variation in altitude and soil types in this hilly region creates differences in climates and exposure, which allows several varieties to excel. One of Australia's most historic wine regions.

## WINEMAKING

Fruit was hand harvested and sorted. A combination of 80% whole berry and 20% whole bunch is tipped into open fermenters. 18-22 days of maceration and fermentation with wild yeast. Pressed, settled overnight and then filled to barrel by gravity. Allowed to mature for 8 months at 61° F in 225 L French casks.

## TASTING NOTES

Medium red in colour. Bright red fruits, lovely Pinot aromatics, hints of whole bunches, complex, spice. Gentle tannins, plump, textural, elegant. The wine will continue to develop complexity and interest with good cellaring for 4-6 years. Wine style: Medium weight, perfumed, textural.

## FOOD PAIRING

Slow roasted duck.
